

Dear Members,

We have been notified that an employee in our fitness area has tested positive for COVID-19. The individual has not been in our facility since the morning of Friday, October 16 and close contacts have already been notified in accordance with guidance from the Hamilton County Department of Public Health.

With your safety and well-being foremost in our minds, we wanted to advise you of the situation. We have also taken additional measures internally to ensure our facilities are cleaned thoroughly for the safety of our members, students, volunteers and staff.

In the meantime, please continue to observe good hygiene practices throughout the day, including washing your hands frequently. If you feel ill, please let us know and do not come to the building.

We encourage you to contact your healthcare providers if you have any particular health-related concerns for yourselves or family members.

If there are any further developments, we will continue to keep you apprised. If you have any questions regarding our policies and procedures please contact our Membership office, Donnie Kalb, General Manager of Fitness Operations or myself.

Thank you for understanding and patience.

Marc Fisher, CEO
